Summary

Passionate Full Stack Developer with hands-on experience in building fast, responsive, and scalable web applications using Java, PHP, JavaScript, React, and Node.js. Adept at relational database design and API development. Currently expanding expertise into AWS Cloud, Docker, and Azure DevOps to architect production-ready environments.

Projects

- Online Examination System** | *PHP, MySQL, HTML5, CSS3, JavaScript, AJAX* 2026
- Engineered a web-based exam platform with dual role-based access control for Admin and Student panels.
 - Implemented dynamic timer-based exams with auto-submission and instant automated result calculation.
 - Designed MySQL database schemas for secure handling of student records, question banks, and test logs.
- Online Food Ordering System** | *PHP, MySQL, HTML5, CSS3, Bootstrap 5, JavaScript* 2023
- Developed a full-stack food delivery app featuring category browsing, cart management, and order tracking.
 - Built an intuitive Admin dashboard enabling seamless menu updates, order management, and query handling.
 - Integrated secure session authentication, custom filtering, and relational database storage for orders.
- Personal Portfolio Website** | *HTML5, CSS3, JavaScript, Bootstrap 5, Git* 2026
- Architected a responsive personal portfolio showcasing projects, academic journey, skills, and services.
 - Implemented custom UI/UX animations, smooth section scrolling, and API integration for live visitor counts.
 - Managed version control using Git/GitHub and configured continuous deployment workflows for hosting.

Technical Skills

Languages: Java, PHP, JavaScript, SQL, HTML5, CSS3
Web Development: React.js, Node.js, Express.js, REST APIs, Bootstrap
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Linux (WSL/Ubuntu), VS Code, XAMPP
DevOps & Cloud (Currently Learning): Docker (Basics), GitHub Actions (CI/CD), AWS (Basic Services)

Education

- Indira Institute of Management & Science** Nanded, Maharashtra
Master of Computer Applications (MCA) 2024 – 2026
- Relevant Coursework: Cloud Computing, DevOps, Software Engineering, DBMS, Web Technologies
- Mahatma Gandhi Mission's College of CS & IT** Nanded, Maharashtra
Bachelor of Computer Applications (BCA) 2021 – 2023
- Relevant Coursework: Data Structures, OOPs, Operating Systems, Computer Networks, DBMS

Certifications & Training

Full Stack Web Development Certification: Comprehensive training in Java, PHP, React, Node.js, and databases. 2023

Multi-Cloud & DevOps Specialization: Hands-on training in AWS, Azure, Docker, and CI/CD pipelines. Currently Pursuing
